

FHWA Webinar Series:

Asset Management Book Club

In 2011, the American Association of State Highway and Transportation Officials (AASHTO) published the *Transportation Asset Management Guide – A Focus on Implementation* to advance the state of the practice on the use of asset management principles in transportation agencies. The document provides guidance on the organizational, business, and technical issues that must be addressed to effectively align agency resource allocations with corporate strategic goals. If you haven't had the time to read the Guide, or if you want to learn more about it, then this book club series is for you! Based on the recommendation of its Transportation Asset Management Expert Task Group, FHWA has joined with AASHTO to sponsor a series of nine 1.5-hour webinars to review the Guide's content and to share experiences from practitioners. The webinars will be conducted on the 4th Wednesday of each month, beginning January 23, 2013. If you're planning to implement asset management in your agency, or if you want to enhance your agency's existing practices, join us for this educational journey through the AASHTO Guide!
